

The "Green Church" is a healthy church. The health of a church is not dictated by where it is located, the style of the service it has, the programs it offers, or the types of people that attend. A church that is green will have characteristics that relate to the character and priorities of Jesus Christ. What are these characteristics? Each characteristic or footprint finds itself rooted in the desire of Jesus to have a church that represents Him on this earth. It is our hope and prayer that during this series our Church will be refreshed and strengthened in our desire to be green in order to spread the fame of God.

Title: Community: Our Spiritual Habitat, Part 2

Date: 3.14.10

The Community of a Green Church will:

1. Be grounded by Bible truth – Acts 2:42; Heb. 2:12-14
